

PROBLEM NO. 1

On day shift on the 4 left 4 North section, foreman Jim Ott was taking an air reading in the number 3 entry behind the ventilation curtain. Tom Smith, the joy miner operator, was preparing to load the first cut of the shift. John Best the number 5 shuttle car operator came from the number 2 entry, turning into the number 3, he swung wide and hit the ventilation curtain. He heard a loud scream and stopped immediately and went behind the ventilation curtain and found foreman Jim Ott lying on the mine floor.

Jim has a suspected spinal injury, no pulse and is not breathing. Perform 4 sets of 2 man CPR. Treat and prepare for transport.
